PROFILE SUMMARY

Results-driven Full Stack Developer with over 3 years of experience. Proven track record in designing scalable web architectures, automating onboarding processes, and integrating complex financial and gaming APIs. Adept at leveraging Node.js, Express, Laravel, PHP, and PostgreSQL to build high-performance backend systems within Agile environments.

EDUCATION

Sri Ramakrishna Institute of Technology <i>Bachelor of Engineering (B.E) – Computer Science Engineering</i>	2018 – 2022 CGPA: 7.9
Keren Mat Hr Sec School <i>Higher Secondary Certificate (HSC)</i>	2018 Scored 79%
Keren Mat Hr Sec School <i>Secondary School Leaving Certificate (SSLC)</i>	2016 Scored 93%

TECHNICAL SKILLS

Languages: PHP (Laravel), JavaScript (ES6+), Node.js, Python
Frontend: React JS, jQuery, AJAX
Databases: PostgreSQL, MySQL, SQL, Firebase
Tools & Methodology: GitHub, GitLab, Bitbucket, Trello, Jira, Agile/Scrum

WORK EXPERIENCE

Software Engineer <i>Cloudrevel Innovations, Chennai</i>	July 2023 – Present
- Architected and maintained robust backend services using Node.js, Laravel, and Express, optimizing data retrieval for high-traffic gaming and banking applications. - Developed Immevault, a centralized onboarding and project-tracking system that streamlines internal workflows and resource management. - Engineered Petty Audit modules to enhance financial transparency, utilizing PostgreSQL for complex relational data modeling and secure transaction logging. - Collaborated on fintech-based projects to implement secure API integrations, ensuring compliance with banking security standards. - Developed gaming platforms, integrating third-party APIs to fetch game data and implementing custom logic to transform and alter data based on specific project requirements.	
Junior PHP Developer <i>Elroi Software Solution, Madurai</i>	Jan 2023 – Jun 2023
- Developed backend modules using PHP Laravel to improve system performance and responsiveness. - Built and maintained seamless frontend components using ReactJS to enhance the overall user experience. - Collaborated closely with UI/UX teams and conducted comprehensive code reviews to maintain high code quality. - Managed the development of Admin panels and APIs for internal business applications.	

PROJECTS

- Immevault:** Centralized project tracking and employee onboarding platform.
- Petty Audit:** Financial auditing system with secure transaction logging.
- Gaming Web Platform:** Third-party game integration and data transformation.
- Blogengine:** Developed a domain website with UI and API functionality. Implemented Laravel backend with user/customer interaction and admin dashboard. Built RESTful APIs.
- HRMS:** Developed UI module using React with Laravel backend including attendance, leave modules, dynamic login, and role-based access. Built admin/superadmin panel for multiple sections.
- Let's Dine:** Developed a food restaurant seat-reservation app with Laravel backend, React Native frontend, Laravel API, and controller functionality.

CERTIFICATIONS

- NPTEL certification in Cloud Computing
- Coursera Web Development Certification
- FreeCodeCamp certifications and Udemy free course certifications

EXTRACURRICULAR ACTIVITIES

- **Event Coordinator** in univesrity Club - Month Year - Month Year
- **Executive member** in Robotics Club - Month Year - Month Year
